# 4. FIRST AID MEASURES

# Description of necessary first-aid measuresEye ContactRinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get<br/>medical attention if symptoms occur.Skin ContactWash off immediately with soap and plenty of water for at least 15 minutes while removing<br/>all contaminated clothing and shoes. Consult a physician.InhalationMove to fresh air. Get medical attention if symptoms occur.IngestionDo NOT induce vomiting. Clean mouth with water and afterwards drink plenty of water.<br/>Never give anything by mouth to an unconscious person. Consult a physician.Most important symptoms/effects, acute and delayed

Most Important Symptoms/Effects Dermal irritation.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to Physician

Treat symptomatically.

#### **5. FIRE-FIGHTING MEASURES**

#### **Suitable Extinguishing Media**

Water spray or fog is preferred; if water not available use dry chemical, CO<sub>2</sub> or regular foam. Small fires may be smothered with sand.

Unsuitable Extinguishing Media Do not scatter spilled material with high pressure water streams.

#### Specific Hazards Arising from the Chemical

Avoid dust formation. Dust suspended in air is readily ignited by flames, static electricity or friction spark. Every reasonable step must be taken to minimize dust formation. Sulfur dioxide reacts with water to form sulfuric acid.

Explosion Data	
Sensitivity to Mechanical Impact	None.
Sensitivity to Static Discharge	Yes.

#### Protective Equipment and Precautions for Firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight from a protected location or safe distance.

#### 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal Precautions	Ensure adequate ventilation. Avoid dust formation. Do not get in eyes. Use personal protective equipment. Remove all sources of ignition. Take precautionary measures against static discharges. Wash thoroughly after handling.
Environmental Precautions	
Environmental Precautions	Do not allow material to contaminate ground water system.

#### Methods and materials for containment and cleaning up

Methods for Cleaning Up Pick up and transfer to properly labeled containers.

#### 7. HANDLING AND STORAGE

#### Precautions for safe handling

HandlingEnsure adequate ventilation. Do not get in eyes. Avoid dust formation in confined areas.<br/>Keep away from open flames, hot surfaces and sources of ignition. Dry powders can build<br/>static electricity charges when subjected to the friction of transfer and mixing operations.<br/>Provide adequate precautions, such as electrical grounding and bonding, or inert<br/>atmospheres. Dust tight castings should be equipped with explosion relief vents. Sparkles<br/>electrical equipment is recommended.

#### Conditions for safe storage, including any incompatibilities

### Storage Keep in a dry, cool and well-ventilated place.

**Incompatible Products** 

Incompatible with oxidizing agents; Acids.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

#### Individual protection measures, such as personal protective equipment

Eye/Face Protection Skin and Body Protection Respiratory Protection	Safety glasses with side-shields. Long sleeved clothing. Impervious gloves. If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
Hygiene Measures	Handle in accordance with good industrial hygiene and safety practice. Provide regular cleaning of equipment, work area and clothing.
